The airfield is located southwest of Gorlovka (48°10° N/38°04° E), Ukrainian S.S.R., about 1 km west of the freight and chunting station. It is surrounded by level to slightly hilly land without woods. The field was occupied by Gorman aircraft in 1942. There were no runways or taxiways.

- 2. A small temporary building with a wind come was on the field. A new threestory building on the eastern edge of the field was completed in 1948. North of the Luilding were three additional three-story houses, llx80 meters, which were completed in October 1949. A fourth building was under construction. The buildings had so-called community apartments and were to be occupied by miners. The ground plan showed a through central corridor with rooms of about 5x6 meters on both sides. The washrooms and staircases were arranged as in barracks.
- 3. The field was permanently occupied by five biplanes, one of which was used daily as a mail plane,
